

Remote Small Group Sessions

This is useful for remote classes where the guide can run small group sessions via Zoom, Google Meetings, or other similar platforms.

1. Choose a time on your calendar and add conferencing to the invitation (Zoom is free for educators right now: <https://zoom.us/docs/ent/school-verification.html>).

2. Send the link of the meeting to students.
3. Have all participants join the meeting and share video, if available, and run a normal guided session with all participants.
